

## Journalist (m/f)

Become part of a team that changes the engineering landscape and strives to build a safer world by challenging conventional thinking and delivering customer focused solutions.

Vibrationmaster manufactures technology leading material test solutions to analyse the integrity of bolted joints. Our patented technologies are brought to use daily throughout the world by leading OEM's such as ABB, Boeing Inc, Toyota Motor and SpaceX.

To support our Sales and Marketing team, we are searching for a Journalist (m/f).

### Your responsibilities:

- Under the guidelines of the Head of Sales and Marketing, to prepare, technical whitepapers, awareness campaigns, email newsletters, articles, brochures and customer communication
- Prepare all written content for our webpage and online presence
- Prepare written and visual content for our e-mail lead nurturing campaigns
- Prepare regular corporate news stories and circulate to relevant media world-wide
- In close corporation with the engineering team to prepare machine operating manuals
- Create internal training material
- Support our Quality Manager in writing and proofreading company procedures

### Your qualifications:

- Education as a journalist with trainings in technical and/or economic matters
- Must be a confident communicator and presenter of technical complex matters
- Must possess strong writing, editing, proofreading, and layout and design skills
- Superior project management and time management skills
- Expert user of a content management system such as WordPress
- Strong knowledge and understanding of current trends in digital media/social media
- Fluent in English and German. Knowledge of Chinese is considered an advantage
- Are inspired by an entrepreneurial culture.

Vibrationmaster offers a challenging future and a competitive remuneration based on a fixed salary and possibility to join our Employee Stock Option Plan. The full-time employment position is available immediately. Please send your application and CV in English to Morten Schiff, CEO, on [ms@vibrationmaster.com](mailto:ms@vibrationmaster.com).
